“WESTMED’s adoption of Bridge Patient Portal and the mHealth App Platform was in direct response to our patients’ request to communicate from a mobile device with their care providers.”

WESTMED Medical Group CIO Merin Joseph, MBA
GE Centricity™ Business and EMR User

“Implementing Bridge Patient Portal is a key element in helping us engage patients as part of the care team while improving outcomes by focusing on prevention and wellness.”

CCC Medical Director Mark Hernandez, MD
NextGen® User

Start using Bridge Patient Portal

Bridge patient portal equips health systems with powerful tools:

- Office-initiated registration and patient self-registration.
- Highly customizable appointment scheduler with features designed to improve workflow, eliminating appointment no shows and unwarranted cancellation of surgeries.
- Patient-centered forms module aimed at easing the burden of in-office documentation.
- Efficient and secure means of file/documentation exchange between providers and patients.
- Flexibility to customize your portal for current needs with the scalability for your future.

Set apart from the rest

Bridge Patient Portal provides your patients with a user friendly, patient-centered portal they can actually use.

Bridge Patient Portal is EHR-agnostic and has developed custom integrations with many of the industry’s leading EHRs, with interfaces already built for GE Centricity™, NextGen®, Allscripts®, Athenahealth®, Greenway Health™ and more.
